INDUSTRIAL VISIT REPORT

Session: 2022-2023

Department of Civil Engineering

Having completed the -month training programme required by the Student Industrial Traning Program , which started on the 2023-03-08.

2 I'm looking to write HTML tables, which contain PHP variables inside the columns, to a unique PDF file. From the way it looks, there's no way to simply write an HTML table to a PDF file. Does anyone have any tools that do this, or a script that would point me in the right direction?.
